Productomschrijving

Riex JD65 Confirmate Screw, HEX, Zinc White Riex JD65 Confirmat Screws are expertly designed for creating strong and precise connections in plate materials like chipboard and MDF. Manufactured from high-quality steel, these screws offer excellent durability and stability, making them ideal for furniture construction and other woodworking projects. The zinc coating provides reliable corrosion resistance, ensuring longevity and consistent performance. For optimal results, pre-drilling using a specialized confirmat drill bit is recommended. Key Features: Ideal for joining chipboard, MDF, and other plate materials Made from durable steel for robust and secure connections Corrosion-resistant zinc finish for long-lasting performance Precision-engineered for professional furniture assembly Requires pre-drilling with a specialized confirmat 3 step drill bit Suitable for a wide range of woodworking applications
