Productomschrijving

Riex ND30 Inner Division Accessories, Set of End Pieces for Cross Dividing Panel The set of end caps for ND30 cross dividing panels provides a secure and functional solution for drawer organisation. These accessories are essential for properly completing and stabilising the cross division system. Key Features: Precision Fit: Specially designed to fit shortened aluminum cross-section panels. Stable Hold: Equipped with hooks that snap firmly onto drawer sides for a stable hold. Seamless Integration: Compatible with ND30 cross dividing panels for seamless integration. This set of end pieces ensures a professional finish to the cross dividing panels, enhancing the durability and visual appeal of your ND30 drawer systems.
